

California Institute of Technology
 Burke Institute for Theoretical Physics, MC 452-48
 1200 East California Boulevard
 Pasadena, CA 91125

Postdoctoral Appointment

Miller Fellow, Miller Institute for Basic Research in Science, UC Berkeley, beginning August 2017
 Junior Fellow, Society of Fellows, Harvard University, 2017 (declined)

Education

California Institute of Technology, 2012 – present (graduation: June 16, 2017)
 Ph.D. Candidate in Theoretical Physics, Burke Institute for Theoretical Physics
 University of Minnesota, College of Science & Engineering, 2008 – 2012
 Bachelor of Science in Physics, May 2012, *Summa cum Laude*, High Distinction, 4.0 GPA
 Bachelor of Science in Astrophysics, May 2012, *Summa cum Laude*, High Distinction, 4.0 GPA
 Bachelor of Science in Mathematics, May 2012, *Summa cum Laude*, High Distinction, 4.0 GPA

Awarded Fellowships

Hertz Foundation Graduate Fellowship	2012 – 2017
National Science Foundation Graduate Research Fellowship	2012 – 2017
Caltech Andrew E. Lange Graduate Fellowship (declined)	2012
Massachusetts Institute of Technology Fellowship (declined)	2012
University of California, Santa Barbara Broida Fellowship (declined)	2012
University of California, Santa Barbara Chancellor's Fellowship (declined)	2012
University of Chicago Michelson Fellowship (declined)	2012
University of Chicago Parker Fellowship (declined)	2012 – 2014

Honors, Awards, Achievements

Caltech John Stager Stemple Memorial Prize in Physics	
Awarded for outstanding progress in research as demonstrated	2016
by an excellent performance on the oral Ph.D. candidacy examination	
Delegate to the 66 th Lindau Nobel Laureate Meeting	2016
Barry M. Goldwater Scholar	2010 – 2012
American Astronomical Society Chambliss Astronomy Achievement	
Student Award for exemplary research	2011
University College London Dean's Summer International Student Scholarship	2011
University of Minnesota Hagstrum Award in Physics	2012
University of Minnesota Outstanding Graduate in Mathematics	2012
University of Minnesota Edmond G. Franklin Scholarship in Physics	2011 – 2012
University of Minnesota Lando Scholarship in Mathematics	2011 – 2012
University of Minnesota J. Ian Richards Scholarship in Mathematics	2011 – 2012
University of Minnesota Alfred O. C. Nier Scholarship in Physics	2010 – 2011
University of Minnesota Ella Thorp Scholarship in Mathematics	2010 – 2011
University of Minnesota Undergraduate Research Scholarship	2010
University of Minnesota Jeffrey Basford Award in Physics	2009 – 2010
University of Minnesota Institute of Technology Alumni Award	2009 – 2010
University of Minnesota Institute of Technology Honors Undergraduate Research Scholarship	2009
National Merit Scholar	2008 – 2012
Robert C. Byrd Honors Scholar	2008 – 2011
University of Minnesota Maroon & Gold Leadership Award	2008 – 2012
University of Minnesota 3M/Alumni Award	2008 – 2012
University of Minnesota Bentson Scholar	2008 – 2012

United States Presidential Scholar	
Awarded medal by President of the United States at White House ceremony	2008
White House Commission on Presidential Scholars and U.S. Department of Education	
Dean's List, University of Minnesota	2008 – 2012
College of Science & Engineering/Institute of Technology	
University of Minnesota McGraw Hill Student Achievement Recognition	2008
for Meritorious Work in General Chemistry	
GRE General – Quantitative: 800, Verbal: 720, Analytical Writing: 5.5	2011
GRE Physics – Perfect Score: 990	2011
SAT – Perfect Score: 2400	2008
SAT II – Perfect Scores: Math Level II and Biology – Molecular	2008

Conferences and Presentations

Invited talk: April 2017

California Institute of Technology
“Bulk Connectedness and Boundary Entanglement”,
Theoretical Physics Research Group Meeting

Invited talk: April 2017

California Institute of Technology
“A Nonlocal Approach to the Cosmological Constant Problem”,
Theoretical Physics Journal Club

Invited talk: February 2017

University of California, Berkeley
“Twofold Symmetries of the Pure Gravity Action”,
String Seminar, Berkeley Center for Theoretical Physics

Invited talk: December 2016

University of California, Los Angeles
“Twofold Invariances of Pure Gravity”,
QCD Meets Gravity Workshop

Invited talk: November 2016

California Institute of Technology
“A Factorized Representation for Gravity”,
Theoretical Physics Research Group Meeting

Invited talk: October 2016

California Institute of Technology
“Positivity of Curvature-Squared Corrections in Gravity”,
Theoretical Physics Research Group Meeting

Invited talk: October 2016

Johns Hopkins University
“Surveying the Landscape: Infrared Constraints on Gravitational Effective Field Theories”,
High Energy Theory/Cosmology Seminar

Conference participation: June 2016

American Delegate, 66th Lindau Nobel Laureate Meeting
Lindau, Germany

Invited talk: May 2016

California Institute of Technology
“Entanglement Conservation, ER=EPR, and a New Classical Area Theorem for Wormholes”,
Theoretical Physics Research Group Meeting

Invited talk: April 2016

Harvard University
“Surveying the Landscape: Infrared Constraints on Gravitational Effective Field Theories”,
Particle Theory Seminar, Center for the Fundamental Laws of Nature

Invited talk: April 2016

New York University
“Surveying the Landscape: Infrared Constraints on Gravitational Effective Field Theories”,
High Energy Seminar, Center for Cosmology and Particle Physics

Invited talk: February 2016

California Institute of Technology
“Positive Signs in Massive Gravity”,
Theoretical Physics Research Group Meeting

Invited talk: November 2015

California Institute of Technology
“Quantum Gravity Constraints from Unitarity and Analyticity”,
Theoretical Physics Research Group Meeting

Invited talk: October 2015

California Institute of Technology
“Splitting Spacetime and Cloning Qubits: Linking No-Go Theorems across the ER=EPR Duality”,
Theoretical Physics Journal Club

Invited talk: April 2015

California Institute of Technology
“What is the Entropy in Entropic Gravity?”,
Theoretical Physics Research Group Meeting

Invited talk: February 2015

California Institute of Technology
“Consistency Conditions for an AdS/MERA Correspondence”,
Theoretical Physics Research Group Meeting

Invited talk: October 2014

California Institute of Technology
“Infrared Consistency and the Weak Gravity Conjecture”,
Theoretical Physics Research Group Meeting

Invited talks: October 2014

California Institute of Technology
“Infrared Consistency and the Weak Gravity Conjecture”,
Parts I and II, Theoretical Physics Journal Club

Contributed Talk: June 2014

20th International Symposium on Particles, Strings and Cosmology (PASCOS 2014), Warsaw, Poland
“Naturalness and the Weak Gravity Conjecture”

Invited talk: May 2014

California Institute of Technology
“How Many e -Folds Should We Expect from High-Scale Inflation?”,
Theoretical Physics Research Group Meeting

Workshop participation: May 2014

Burke Institute Workshop on Primordial Gravitational Waves and Cosmology
California Institute of Technology

Invited talk: February 2014

California Institute of Technology
“Naturalness and the Weak Gravity Conjecture”,
Theoretical Physics Journal Club

Invited talk: February 2014

California Institute of Technology
“Naturalness and the Weak Gravity Conjecture”,
Theoretical Physics Research Group Meeting

Invited talk: September 2013

California Institute of Technology
“Attractor solutions in scalar-field cosmology”,
Theoretical Physics Journal Club

Poster presentation: August 2013

The Hertz Foundation 50th Anniversary Symposium (Hertz Graduate Fellowship), College Park, MD
“Extremal Black Holes, Photon Propagation, and the Weak Gravity Conjecture”

Contributed talk: April 2013

American Physical Society April Meeting, Denver, CO
“Complex Orbital Dynamics of a Double Neutron Star System Revolving around a Massive Black Hole”,
Bulletin of the American Physical Society (2013), url: meetings.aps.org/link/BAPS.2013.APR.Q8.3

Invited talk: August 2011

Mullard Space Science Laboratory, United Kingdom
“Relativistic Phenomena of Multi-Body Systems: Tidal Precession, Spin-Orbit Coupling, and Gravitational
Wave Frequency Splitting”

Invited talk: August 2011

Dean’s Summer International Student Day of Talks, University College London, United Kingdom
“Spin-Orbit Coupling: A Test of General Relativity”

Poster presentation: January 2011

217th Meeting of the American Astronomical Society, Seattle, WA
“A New Assessment of Dark Matter in the Milky Way Galaxy”, Bulletin of the American Astronomical
Society, **43**, 2 (2011)
Received American Astronomical Society Chambliss Astronomy Achievement Student Award for this work.

Teaching Experience

University of Minnesota, Institute of Technology, Department of Astronomy – Fall 2009

Teaching assistant to Dr. Robert Gehrz, Department Chair

Assisted with Astrophysics 2001 course, graded all homework and exams, responded to student queries concerning
coursework, formulated all answer keys, and provided input on problem sets.

Scientific, Professional, and Honorary Affiliations

Sigma Pi Sigma, National Physics Honor Society

Phi Kappa Phi Honor Society

Golden Key International Honour Society

American Physical Society

American Astronomical Society, Junior Member

Society of Physics Students

Undergraduate Honors Theses

“Dynamics of a Rigid Spinning Ring in the Schwarzschild Metric: A Solution to a Gravitational Problem in Mathematical Physics”, G. N. Remmen, 2012.

Thesis Defense: University of Minnesota, Minneapolis, MN. May 3, 2012.

Approved as *summa cum laude*, mathematics.

Thesis advisor: Dr. Willard Miller, School of Mathematics, University of Minnesota.

Research supervised by Dr. Kinwah Wu, Head of Theory, Mullard Space Science Laboratory, University College London, UK.

“*Hubble Space Telescope* Subpixel Modeling of Anomalous High-Excitation Emission Lines in the Ejecta of Eta Carinae”, G. N. Remmen, 2011.

Thesis Defense: University of Minnesota, Minneapolis, MN. December 15, 2011.

Approved as *summa cum laude*, astrophysics.

Thesis advisor: Dr. Kris Davidson, Minnesota Institute for Astrophysics, University of Minnesota.

“Distortion of Black Holes caused by Motion relative to the Cosmic Microwave Background”, G. Remmen, 2010.

Thesis Defense: University of Minnesota, Minneapolis, MN. April 30, 2010.

Approved as *summa cum laude*, physics.

Thesis advisor: Dr. Robert Gehrz, Director, Minnesota Institute for Astrophysics, University of Minnesota.

Extracurricular Activities and Community Service

California Institute of Technology Graduate Student Council Board of Directors – 2013 – present

Member, Academics Committee and Director at Large – 2016 – present

Member, Academics Committee and Physics Representative – 2013 – 2016

California Institute of Technology Faculty Library Committee, Student Representative – 2013 – present

Co-author/-composer of a two-act musical, *Boldly Go!*, a musical parody based upon *Star Trek*

Music director of Caltech production of *Boldly Go!*: mainstage production – 2016, public reading – 2015

Public science outreach: presented talks on dark matter to physics classes in rural Minnesota – 2011

University Study Abroad May Seminar: Great Minds of the Renaissance, Italy – 2011

Examined history of Renaissance scientists (Galileo, daVinci, et al.) and their relationship to society

University of Minnesota Gospel Choir – 2008 – 2010

Detroit Lakes Community Summer Band Program – 2008 – 2010

University of Minnesota Honors Student Association

University of Minnesota volunteer caller for Admissions Office – 2008 – 2009

U.S. Department of Education volunteer: assembled hygiene kits for Washington, D.C. homeless – 2008
